Are you new to or looking to start a career in the construction industry? ABC Virginia's Construction Core Craft Training Program is for assistant project managers, office personnel, warehouse, yard workers and anyone new to the industry who can benefit from understanding the trades and what is expected of the workforce in the field.

This program is a 10-week program offering valuable information demanded by the construction industry. The course is taught by an industry professional with additional guest speakers and demonstrations while using the NCCER Core Curriculum.

This program will include **basic construction skills, basic safety, power tools, hand tools, construction math, construction drawings, employability skills, communication skills, basic riggings and material handling.**

(The Core Curriculum is also a prerequisite for all trade/apprenticeship and is designed to provide students with basic knowledge and skills required in the construction trades.)

Upon successful completion of the course, individuals will receive NCCER credentials for the Core Curriculum.
