## ABC of Metro Washington & ABC Virginia Host 37<sup>th</sup> Annual Excellence in Construction Awards

**Tysons Corner, VA** – The [Metro Washington](#) and [Virginia](#) Chapters of Associated Builders and Contractors (ABC) honored the winners of the 37<sup>th</sup> annual Excellence in Construction Awards, September 13<sup>th</sup>, at the Ritz Carlton in Tysons Corner, VA. The annual Excellence in Construction Awards recognizes and celebrates outstanding projects built by Washington-area ABC members. The awards competition serves to raise the level of construction standards throughout the industry by recognizing the workmanship of those who contribute and by showcasing the results of their dedication.

ABC contractors entered more than 114 projects in categories including commercial, commercial/residential renovation, drywall, educational, electrical, excavation/site preparation, heavy/industrial/transportation, historic restoration, industrial, institutional, interiors, landscaping,

- more -

masonry, mechanical, medical renovation, mega project, mixed use, residential, restaurant interior build-out, retail, and specialty.

"These winning projects highlight and honor the extraordinary teamwork between general contractors, architects and engineers, specialty contractors, and material suppliers," said Patrick J. Dean, president, ABC Virginia Chapter.

A large panel of industry experts served as the competition's judges. This year's panel included industry professionals from a cross-section of the building industry, including architects, owners, government officials, and other industry leaders around the Washington metro-area.

"To select the award winners, more than 100 judges reviewed the entry submittals and visited each project site," said Debbie Livingston, president, ABC of Metro Washington. "Projects were judged on complexity, unique challenges overcome, completion time, workmanship, innovation, cost and safety."

The evening also honored members of the construction team with the presentation of 16 Subcontractor of the Year Awards. More than 100 ABC general contractors voted to select the subcontractor winners.

Subcontractor of the Year Awards were presented in the following categories: concrete; doors and windows; drywall and ceiling; electrical; finish carpentry and architectural millwork; fire protection; furnishings; landscaping; masonry; mechanical; metals; paintings and wall coverings; plumbing; site work; stone, tile, flooring and carpet; and thermal and moisture protection.

About Associated Builders and Contractors: The Metro Washington and Virginia Chapters of ABC represent the interests of nearly 1,000 contractors, specialty contractors, and suppliers throughout Virginia, Maryland, and the District of Columbia that support and believe in the principles of merit shop construction and open competition. Merit Shop is a way of doing business in which companies reward employees based on performance and encourage them to reach their highest level of achievement, and in which contracts are awarded based on safety, quality, and value, regardless of labor affiliation. An open marketplace creates efficient, cost-competitive projects, safe work sites, comparable wages and workforce training.
