DPR Construction Reaches Milestone on Latest CyrusOne Hyper-Scale Project

STERLING, VA— DPR Construction hosted more than 500 people at the topping out ceremony for the latest CyrusOne Kincora data center project in Loudoun County, Va., on April 6. In an area known for hosting [70 percent](#) of the world's internet traffic, CyrusOne is adding nearly 650,000 sq. ft. and 45 MW of critical capacity to the famous "Data Center Alley."

Members of the DPR Construction and CyrusOne team, along with subcontractors, neighboring businesses and members of the Loudoun County Board of Supervisors, came together for the celebratory lunch as DPR and CyrusOne thanked the men and women for being a part of delivering one of CyrusOne's largest ground-up data center project to-date.

"CyrusOne has experienced tremendous growth in Northern Virginia, and our continued expansion in the region reflects our long-term commitment to be the preeminent data center provider in the region," said Kevin Timmons, chief technology officer, CyrusOne.

When completed, this project will provide nearly 600,000 sq. ft. of customer-ready data center space and a three-story, 55,000 sq.-ft. office building. The first phase being completed by DPR includes a 60,000 sq.-ft. data center with 9MW critical capacity and is set to be commissioned by May 2017.

"Just as CyrusOne provides its forward-thinking, global customers with reliability and flexibility for IT environments, DPR is creating efficient and predictable outcomes for our customers in the mission critical market and beyond," said DPR Project Manager Chris Strock. "Together, we are moving ever forward."

###

About DPR Construction

DPR Construction is a forward-thinking national general contractor and construction manager specializing in technically complex and sustainable projects for the advanced technology/mission critical, life sciences, healthcare, higher education and commercial markets. Founded in 1990, DPR is a privately held, employee-owned company that has grown to a multi-billion-dollar organization with offices around the country, making it one of the largest general contractors in the nation and a great story of entrepreneurial success. DPR was ranked the No. 4 Data Center Builder in 2016 by *Engineering News Record* on their Top Contractors list and ranked on FORTUNE's "100 Best Companies to Work For" list for five consecutive years.
